Spilled pellets, flakes and powder can make their way into local waters and eventually end up in our oceans where they create a litter problem and a threat to sea life. We need your help to keep plastics pellets where they belong. When you take the pledge and implement the Operation Clean Sweep® program, the environment and your company win.

PLEDGING WILL HELP STRENGTHEN YOUR COMPANY’S:

- Contribution to preserving water quality and wildlife
- Compliance with federal, state, provincial and municipal regulations
- Employee health and safety program
- Operational efficiency
- Financial bottom line
- Reputation in the community

TAKE THE PLEDGE
Help Prevent Resin Pellet, Flake and Powder Loss to the Environment

Visit opcleansweep.org to learn more about Operation Clean Sweep® and for tools that can help your company work toward zero pellet, flake & powder loss.

TAKE THE PLEDGE:
OPCLEANSWEEP.ORG
Keep plastics pellets in check.

OPCLEANSWEEP.ORG
Operation Clean Sweep® is an international program designed to prevent resin pellet, flake and powder loss, and help keep pellets, flakes and powder out of the marine environment. Every segment of the plastics industry—including resin producers, transporters, bulk terminal operators, plastic recyclers and plastics processors—has a role in implementing good housekeeping and pellet, flake and powder containment practices.

DON'T QUALIFY FOR PARTNERSHIP?

You do not manufacture or handle resin pellets, flakes or powder BUT want to support the efforts of OCS to prevent pellet, flake or powder loss—then become a supporter of OCS.
